

# *DIGICORE'S IVMS SOLUTIONS*

**MAKE COMPLIANCE A PRIORITY**

# IVMS SOLUTIONS

- *High precision GPS and GLONASS positioning systems* – for enhanced accuracy, live tracking and faster fixes.

- *Real-time asset tracking* – to remain continuously connected with the asset while on the move.

- *Bluetooth® 5.0 Gateway* – for affordable tagged asset management and sensor monitoring applications.

- *To track assets outside of cellular coverage* – use our IVMS Solution with an optional Iridium Edge® Module

# IVMS SOLUTIONS

- **Customisable hardware** - including seatbelt detection, panic buttons, built in warning buzzers, pulse counting

- **Remote Immobilisation** - enabled by connecting digital output to a relay in the case of theft, abuse, or unauthorised usage.

- **Theft Recovery** - Recovery mode in the case of theft or loss to activate live-tracking at 30 second intervals for asset retrieval.

- **Drive ID Options** - Configure iButton®, RFID Readers, or Wiegand for Driver ID and log booking. Wiegand is more secure and convenient card reader.

# IVMS SOLUTIONS

- ***Driver Safety & Behaviour*** - Monitor speeding, harsh acceleration, braking, cornering, idling, and more to improve safety and prevent wear on vehicles.

- ***Accident & Rollover Detection*** - Configure accident and rollover alerts triggered by extreme changes in velocity and orientation of vehicles.

- ***Remote Worker Safety*** - man-down alerts for lone and remote worker safety monitoring, enables you to get the message out immediately.

- ***Run Hour Monitoring*** - Calculate run hours and distance travelled (odometer) to understand and optimise asset utilisation.

# ***LAST BUT NOT THE LEAST***

- ***Geofencing*** - Create custom geofences and alerts if an asset enters or leaves specific locations.
- ***Setup speed limits*** within geofences and get in cab alerts if you exceed the limit.
- ***Hardwired geofencing*** means that you do not need a cellular coverage to track your vehicles.
- ***Make changes remotely*** to suit your needs.
- ***Preventive Maintenance*** - Set reminders based on distance travelled and run hours to reduce maintenance and repair costs.
